

U. S. Assay Office, Melter & Refiner's Department,

New-York, Feb. 3<sup>d</sup> 1857

My dear Sir,

The large wooden  
fannels for our precipitating  
bats, are worn out, and I find  
that I cannot replace them  
in this city. The name of the  
maker is obliterated. Will you  
oblige me by filling his name  
into the enclosed order, and  
request him to fill the same  
and send bill & duplicate  
receipted, by express for  
collection & thus oblige

Yours truly

Edward M. Kent
